

TORIANO RIDDICK JR.

RiddickanCo, LLC / MOVARA | Founder & Principal Consultant | Contract ISO 9001 Lead Auditor

Hope Mills / Fayetteville, NC | 901-896-7174 | triddick@riddickanco.com | riddickandcollc.com

Veteran-Led SDVOSB | UEI: LR5CVRR9Y4K4 | CAGE: 16RY0 | Secret clearance background

EXECUTIVE PROFILE

Veteran-led quality assurance, auditing, and compliance professional with 10+ years across U.S. Navy aviation, federally regulated manufacturing, nuclear quality, and third-party ISO certification auditing. Founder of RiddickanCo, LLC and the MOVARA workforce initiative. Experienced leading ISO 9001:2015 recertification, Stage I/II, scope-extension, onsite, remote, and hybrid audits while translating customer, regulatory, and management-system requirements into traceable evidence. Hands-on coverage includes design and development, configuration/change control, supplier controls, manufacturing and machining, inspection/test, calibration, competence, document control, risk, corrective action, management review, internal audit, release, and customer feedback.

QUALITY & AUDIT COVERAGE

Management Systems

- ISO 9001 / AS9100
- Stage I / Stage II / RC
- Internal & supplier audits
- CAPA / root cause / risk
- Management review & IA

Technical Quality

- Design / configuration control
- Inspection / test / release
- Calibration & measurement
- Supplier / outsourced processes
- Traceability & NCR control

Sectors

- Defense / government R&D
- Nuclear / energy
- Aviation / aerospace
- Manufacturing / machining
- Food / engineering / training

PROFESSIONAL EXPERIENCE

Founder & Principal Consultant — RiddickanCo, LLC / MOVARA (SDVOSB)

Lead a veteran-owned quality, compliance, audit, and workforce-development company serving regulated industries and government-adjacent organizations.

- Deliver ISO 9001 / AS9100 implementation support, internal audits, gap assessments, audit readiness, corrective-action support, and executive-level compliance guidance.
- Support nuclear quality programs through NQA-1 / ISO 19443 readiness, procedure and records review, quality-program development, supplier oversight, and objective-evidence assessment.
- Build paid quality-workforce training in QA/QC, internal auditing, lead-auditor development, blueprint/inspection fundamentals, and employer-connected career pathways through MOVARA.
- Serve as a subcontract/consulting resource for federal, DOE-adjacent, engineering and ISO programs, supporting quality procedures, evidence review, internal audits and audit readiness.

Contract Lead Auditor — Perry Johnson Registrars, Inc. (PJR) | 2026 – Present

Conduct independent third-party management-system audits across manufacturing, engineering, service, education, and government environments.

- Lead ISO 9001:2015 recertification, Stage I/II, scope-extension, onsite, remote, and hybrid audits; build traceable audit trails from requirements through implementation, verification, release, and effectiveness.
- Audit design/development, configuration and change control, production/service controls, calibration, inspection/test, competence, infrastructure, supplier controls, documented information, risk/opportunity, internal audit, management review, CAPA, and customer satisfaction.
- Conducted ISO 9001:2015 recertification and scope-extension fieldwork in a U.S. government/defense testing and laboratory environment, reviewing process controls, documented evidence, competence, external providers and traceability. Client names and controlled technical details are kept confidential.
- Review education and professional-services systems, including service design/delivery, outsourced providers, performance measures and Stage II readiness. Prepare traceable working papers and closeout records for registrar technical review.

Nuclear Quality Assurance Representative — DuBose National Energy | 2025 – Present

Provide nuclear and energy-sector QA oversight within high-consequence, procedure-driven environments.

- Review procedures, records, implementation evidence, and quality-program controls against NQA-1, 10 CFR 50 Appendix B, 10 CFR 21, contract requirements, and approved QA program documentation.
- Identify documentation gaps, implementation risk, and systemic weaknesses; support CAPA tracking, effectiveness verification, and continuous-improvement activity.
- Interface with engineering, project management, suppliers, and quality leadership to strengthen compliance posture and audit readiness.

NSIS Supervisor & Problem-Solving Manager — Smithfield Foods (USDA / FSIS)

Led regulatory compliance, inspection, and structured problem-solving in a high-volume federally regulated food-manufacturing environment.

- Managed HACCP, SSOP, GMP, traceability, inspection, regulatory response, and corrective-action activity under continuous USDA-FSIS oversight.
- Led investigations and root-cause analysis for process failures and nonconformances; coordinated corrective actions with operations and executive leadership.
- Trained inspectors and production personnel on regulatory expectations, process discipline, documentation, and audit readiness; contributed to multi-million-dollar operational improvements.

Quality Assurance Lead / Manager & Instructor — U.S. Navy Aviation | 8 Years

Led aviation quality and inspection programs supporting safety-critical maintenance, survival equipment, and mission readiness.

- Performed and supervised QA inspections, internal audits, corrective-action reviews, documentation control, personnel qualification, and compliance to Naval Aviation Maintenance Program requirements.
- Served as CDI / QA lead and instructor for Navy, Marine Corps, and international personnel; translated technical requirements into practical qualification and inspection standards.
- Managed quality/inspection records and readiness information for multi-million-dollar aviation assets and provided leadership with clear assessments of risk, conformity, and operational status.

TRAINING AND QUALITY BACKGROUND

- | | |
|---|---|
| • ISO 9001 / AS9100 Lead Auditor training | • Nuclear QA: NQA-1 / 10 CFR 50 App B / 10 CFR 21 |
| • ISO 19443 Nuclear Supply Chain Readiness | • Lean Six Sigma Green Belt |
| • HACCP / Food Safety Auditing | • U.S. Navy Quality Assurance / CDI |
| • Enlisted Aviation Warfare Specialist (EAWS) | • Secret clearance background |
